

## **Things that we cannot repair:**

- **Microwaves**
- **Electric Blankets**
- **Printers**
- **Sewing machines, unless very basic cleaning (not a service or resetting of functions)**
- **Watches (we may consider repairs to some straps).**
- **Tools for sharpening (Ilminster Home Hardware provides this service).**
- **Items that have a faulty lithium battery (it's too costly to check they work unless we already have a battery).**
- **Dangerous things, such as chainsaws and brush cutters.**
- **Dirty things – that will need cleaning, descaling, etc, before they can be repaired.**
- **Petrol-powered items.**
- **Items that will not easily fit in the back of an average car.**
- **Zips on heavy or thick fabrics.**
